### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Seth Kim on May 20, 2004.

The application has been amended as follows: This application is in condition for allowance except for the presence of claims 28-53 drawn to a group non-elected without traverse. Accordingly, claims 28-53 have been cancelled.

The following is an examiner's statement of reasons for allowance: prior art could not be located that taught plating an interconnect pattern with a first plating layer formed on the interconnect pattern surface opposite to the substrate; a second plating layer formed on the interconnect pattern surface looking toward the substrate in the through holes; and a resin provided on the first plating layer, wherein the first plating layer is more appropriate for contact with the resin than the second plating layer, and the second plating layer is more appropriate for bonding to the conductive material than the first plating layer. This limitation, in conjunction with the other claim limitations, was neither disclosed in, nor suggested by, the prior art.

---

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
